SHANMUKHA SETTI

PROFILE

As an adaptable developer with a sharp ability to learn quickly, I bring strong motivation to every project I undertake. My dedication to continuous improvement strengthens my skills daily, making me increasingly well-suited for the industry. I am eager to work on projects that provide valuable experience and contribute to my professional growth.

PROJECTS

CHITHRAM

2024

Developed a web application to showcase details of various cultural films made in each state of India which supposedly made a huge impact on the Indian Cinematography. This web application was done using HTML, CSS, JavaScript, Firebase - Realtime Database.

IMAGE SEARCH APPLICATION

2024

A web application which is developed to work as an image search engine where user can find several "No copyright images". This was achieved by utilising Unsplash API.

ACTOR SEARCH APPLICATION

2024

Developed a web application to display the actors based on the query passed by the user. To achieve this, I utilised a Movie Database.
